

# Indehandrail Module

STD-000018-0027

## Configured Product

CCT

3000K

Finish

Brushed stainless steel

Secondary Lensing Accessories

Without mask

Lens

Diffused Glass

Compact LED module designed to be integrated into a handrail, providing safe and effective pathway illumination.

## Product Description

The Indehandrail Module is a low-profile, high-performance lighting component with customised glass optics to provide a soft beam of light. Also available with a mask accessory to avoid light spill onto walls or balustrades. Constructed from precision-machined recycled aluminium, the system features an anodised and powder-coated finish for enhanced durability and aesthetics.

## Key Features

- Sustainable construction: made from recycled aluminium with a weather resistant long-lasting anodised finish. Specialist finishes available on request.
- Stainless Steel, Brass and Bronze bezel options available on request.
- Specialist glass lenses for soft wide distribution and additional shield option to limit spill light.
- Advanced dimming options: DALI, 0-10V, DMX and Wireless dimming, down to 0.1%.
- High-performance lighting: up to 97 CRI LEDs

Compliance

Technical

Supply	Remote constant current LED driver required
Light source	SL Star
