

Modular high-performance, low voltage track-mounted spotlight system, for interior architectural applications such as Museums, Galleries and Retail. Engineered for exceptional durability, maintainability, re-manufacturability, and recyclability, this spotlight sets a new standard for sustainable design.

ZTA.50.LV Track is constructed from extruded and precision-machined recycled aluminium, the spotlight features an anodised and powder-coated finish for enhanced durability and aesthetics. Easily interchangeable between Framing projector, fixed optic, Wall Wash and Zoom options.

Key Features

- Sustainable construction: made from recycled aluminium with a long-lasting anodised and powder-coated finish. Specialist finishes available on request.
- Framing attachment can be easily swapped to fixed optics, Zoom and Wall Wash.
- The easy-to-adjust fins allow for precision positioning to sharply define light on pieces of artwork.
- Versatile adjustment: 363° pan rotation and 130° tilt with a lockable spot.
- Advanced dimming options: DALI, 0-10V, and Wireless dimming, down to 0.1%.
